TURNTABLE ULTRAFLEX

PLUG & PLAY TURNTABLE FOR ORIGINAL PRODUCT PRESENTATIONS

Connect and rotate – it doesn't get any easier.

Ideal for situations where quick setup and breakdown are essential, such as trade shows or temporary events. The turntable is flexibly adjustable to a diameter of 80, 100, or 120 cm.

The turntable comes standard with side and top finishing.

A true powerhouse – capable of handling eccentric loads up to 500 kg.

.

UltraFlex Turntable – the cost-effective Plug & Play presentation solution

The UltraFlex offers maximum flexibility and was specifically developed to make professional and effective product presentations as simple and efficient as possible. Based on real customer needs, it's the ideal solution for companies looking for a flexible, mobile, and affordable presentation platform.

The turntable comes standard with side and top finishing. An integrated, rotating power outlet allows you to easily display products that require electricity.

With an adjustable diameter of 80, 100, or 120 cm, the UltraFlex adapts effortlessly to various product sizes. Its compact design and low weight of only 33 kg make it easy to transport and set up – perfect for use at trade shows, in showrooms, or shop windows. The Ultraflex turntable comes in a flight case in Euro pallet size, making it easy to ship — quickly, efficiently, and cost-effectively.

Maximum Load

The UltraFlex is designed to support products and persons up to 500 kg. The maximum point load (20 × 20 cm) is 200 kg. Its robust construction allows for off-center loading without risk of tipping – ideal for showcasing high-end products.

Need a higher load capacity? We also offer larger models supporting up to 3000 kg. Feel free to contact us for a custom solution.

UltraFlex Turntable Control

The UltraFlex comes standard with a convenient remote control that allows you to:

• Start or stop the turntable

• Set the direction of rotation (left/right)

• Adjust the rotation speed

A remote control is included – ideal for events or on-site technical teams.

Why Choose UltraFlex?

UltraFlex stands out for its exceptional flexibility:

• Adjustable Diameter

Standard 80 cm – expandable to 100 or 120 cm

• Versatile Use

Perfect for events, trade shows, presentations, testing setups, and more

• Lightweight & Mobile

Only 33 kg – easy to transport and set up

• Power Supply While Rotating

Electronic devices can be powered while rotating thanks to the integrated rotating power outlet

Power Requirements

Only one standard power socket needed (1 × 230 V, max. 4,5 meters from the turntable)
